# THE BIBLICAL MOLECULE

The Biblical Molecule that created Homo Sapiens, determines their fate, length and quality of life.

This incredible story of a molecule in evolution, gerontology and human pathogenesis, the strength, character and quantity of the molecule are the engine of evolution, the biological clock and the manager of human life, from which an exceptional species on earth were made.

Dr. Joe Vodny is an independent scientist and gerontologist who, with the help of the new Hi-Tech Medical found a mysterious and thus far unused system of infinite renewal within the organism. When we want to use infinite renewal, there must inevitably be a reform of thinking, learning and lifestyle.

What will you find in the book?

- A description of the greatest secret of human life.
- All the important information about the Molecule.
- Information about the infinite renewal system, how it was discovered, how it works, why the Molecule is a key factor in this system.
- Why do we live to a maximum of 120 years.
- Where Homo Sapiens make mistakes when they fail to stop aging and death.
- Why the revolutionary Hi -Tech Medical field will be the future of medicine, prevention and therapy for everyone.
- Instructions and a system for everyone to start regulating their age and quality of life.
- Why the molecule is the main cause of more than 90% of chronic diseases and why it can also save you.
- A formula and a calculator, that you can use to calculate and estimate the length of your life.

- An opportunity to participate in a new global project and study, minimizing the risk of death and studying the use of the potential of immortality.
- What is the charm and uniqueness of the project and study for patients on dialysis, with Alzheimer's and Parkinson's disease, multiple sclerosis, cancer patients and thyroid gland diseases?
- Using the example for the different life spans of worker bees (aged 3-6 months) and queen bees (age 3-6 years), which have the same genetic material, the book describes and explains the unused system of infinite human renewal.
- Why could some people live as many years as the Bible says.
- Using the example of comparing the different number of molecules in the medium, in monkeys and humans, we explain the new evolutionary theory of humans.
- Special area dedicated to women and pregnant women.

Quotes demonstrating fear:

"Because we are destined to get cancer, I had preventive surgery on my ovaries, fallopian tubes, uterus and I had mastectomy."

It is the horror and tragedy of ignorance in the 21st century, which must not be repeated! I wish you a pleasant reading. You can purchase the e-book at.....

# Introduction

In this book, I use scientific research and knowledge, along with the latest technology. Furthermore, the goal of this book is to further expand my research of continuous blood glucose measurement, and I will strive to become the biggest fan and promoter of this technology. It will be the future of a new modern lifestyle for everyone.

Why can we trust the information produced by scientific research?

Science is the best way we know to develop reliable knowledge. It's a collective and cumulative process of assessing evidence that leads to increasingly accurate and trustworthy information.

Knowing how to make maximum use of the right knowledge is the key to moving a person to a higher level. Why not try it, with the help of this book, project, study and our experience.

Author Joe Vodný - Motto 1

Ignorance, incorrect knowledge and laziness are the main cause of short life, poor health and low quality of life.

Motto 2

Correct prevention therapy is many times more effective, more successful, and cheaper than other forms of standard therapy!

Motto 3

With the right change, never give up!

We only live once, let's learn and improve.

How can we avoid the tragedy of life and try something extraordinary?

The best medicine for a person is to constantly use and follow the suggested correct knowledge and system, with which we can regulate the quality and length of life! I strongly believe, prove and describe huge
